BT Quadbox Sections

BT Quadbox Chambers

Quadbox® is a robust preformed underground access chamber system for use in all types of buried networks and utilities.

The Quadbox® system comprises of 150mm height stackable rings, which interlock to build variable depths. It is especially suitable for use in congested networks.

Code	Description	Width	Depth	Length
JMF104	915mm x 445mm x 150mm Quadbox Section	445mm	150mm	915mm
JMF106	1310mm x 610mm x 150mm Quadbox Section	610mm	150mm	1310mm

Product Benefits

- Simple stacking system, fast & reliable
- One stop fast installation
- Minimum disruption, reduced traffic management and install costs
- Robust & lightweight
- Excellent vertical & sidewall stiffness
- Generous overlap between sections for maximum integrity
- Suitable for use in congested networks
- Duct entry drill guides, highly adaptable
- Easy fit drop-in furniture
